## ABOUT US

### A half-century of knowledge and experience...

is not just a material to sleep on, but an essential element that requires expertise and directly affects our quality of life.

We have combined the knowledge we've accumulated from the past with the technology of the future. To provide you with a deep and uninterrupted sleep experience, we have integrated all emerging technologies into our mattresses so you can wake up to happier days.

We unite the speed of machines with the value of craftsmanship. In our new production lines, we manufacture mattresses using advanced machinery, which are then transformed into unparalleled comfort by the skilled hands of our masters and experts.

Today, we are among the preferred brands not only for users who experience işbir quality in Turkey and around the world but also for hotels that wish to offer a premium experience to their guests.

We present our products to users in 26 countries, primarily European countries such as Belgium, Germany, the Netherlands, Austria, Hungary, Switzerland, and Italy.

As part of our identity as the **"Sleep Expert,"** we bring together healthy sleep components under one roof and continuously personalize our products to contribute to the culture of sleep.

For the well-being of your mind, body, and sleep, a mattress is crucial.  
That's why it should be purchased from the **Sleep Expert.**

## POCKET SPRING MATTRESS

### Give your guests the gift of an unforgettable sleep...

This mattress provides a refreshing and ideal sleep atmosphere with its skin friendly, special viscose woven fabric. While the enhanced down comfort layer in the top surface of **Luxury No: 2 Bedding**, provides night-long comfort, the high-density support layers provide the best support to your body throughout the night. The pocket springs, each wrapped in independent pockets, protect the natural curve of the spine. Since it is comprised of independent springs, movement in one location of the mattress is not felt in other locations. Couples are not affected by involuntary tossing and turning.
