Features guide

Your benefits at a glance

Residential
guarantee

All floors are put through a series of rigorous tests in order to comply with international quality standards, which is why we grant an extensive residential warranty with every product.

Light-
resistant

The flooring is light-resistant: Even on days when the sun is shining for hours, your flooring remains non-fading according to rating 6 of the Blue Wool Scale.

Real groove

Bevelled edges on all four sides of the plank ensure an authentic floorboard look.

Anti-slip
class

Safety is something we put great emphasis on. Classification in anti-slip classes has been achieved through specially developed surface structures, which address the requirements for floor coverings in the workplace and commercial areas where a high risk of slipping is present.

Classification:

R9 and R10 according to DIN 51130 and DIN EN 16165

Soft bevel

Inspired by traditional craftsmanship, the true-edge-bevels provide a harmonious room appearance.

Antibacterial
comfort

A.B.C. Anti Bacterial Comfort inhibits the growth of bacteria on your flooring and provides you with the peace of mind that comes from a healthy home environment. Tested germs: Staphylococcus aureus

Design
diversity

Up to 60 different panels on digitally printed design are possible. This lends your flooring an authentic appearance that is virtually free of repetition.

Authentic
embossed

The synchronous pores follow the grain of the decor, meaning they flawlessly mimic the character of natural wood.

Real wood

This floor is made from real wood. The high-quality brushed oak surface gives every room natural elegance.

Microscratch
protect

The robust surface protects your flooring against micro-scratches that can be caused by strong mechanical stresses or the claws of house pets.

Anti-static

The flooring provides complete protection against unpleasant shocks. The Anti-static is built-in and guaranteed for the life of the floor.

Pet-proof

Thanks to the robust surface, which is also undaunted by small mishaps, the flooring is exceptionally well-suited for life with house-pets.

K411 Laguna Oak

K326 Sundance Oak

Laminate Flooring Take more. Endure more. Withstand more.

mo.re! from KRONOSPAN is a moisture-resistant laminate flooring product that makes laminate even more practical for everyday life.

mo.re! makes laminate flooring even more moisture-resistant. And that's a good thing. After all, small everyday mishaps can happen to anyone.

How mo.re! technology works

mo.re! is based on a specially developed substrate formula.

Its new binding agent makes the flooring more durable and decreases swelling – improving resistance to moisture penetration.

Scan the QR code
and check out the
mo.re! features!

* 24 h surface water protection as stipulated by NALFA and 48 h splash-water protection according to works standard KRONOSPAN WN-103, www.floor-with-more.com

**Your floor
can do mo.re!**

K476 Inca Carpenter Oak

mo.re! can stand up to what life brings

www.blauer-engel.de/uz176

It is **much more moisture-resistant** than traditional laminate flooring

It is **A.B.C. surface*** inhibits bacteria growth on floors to protect your family

It is **light-resistant**: Even on days when the sun is shining for hours, your flooring remains nonfading according to rating 6 of the Blue Wool Scale.

It is **perfect for life with house pets** – the robust and hard-wearing surface masters the everyday challenges of households with pets

It is great for **installation in private bathrooms****

It is available in **utilization classes 32 and 33** according to DIN EN 13329

* Tested germs: Staphylococcus aureus ** Please refer to the installation instructions

K326 Sundance Oak

mo.re! for the environment

mo.re! offers more, even for the environment

It is made using only wood from sustainably managed forests. And KRONOSPAN does not use any PVC in flooring with the mo.re! technology. This demonstrates our commitment to environmental stewardship. mo.re! substrate is CO₂-negative: Processing a tree to make this product emits less CO₂ than the tree has stored in its life.

* May contain traces of PVC, e.g. from packaging

The sustainable alternative to parquet

These wooden floorings are luxurious, cosy and natural. The high-quality brushed oak surface lends homely flair to any room. With the Veneer Parquet series, KRONOSPAN offers authentic wood floors with a real wood veneer as the top layer.

The special thing about it: KRONOSPAN combines the natural properties of the raw material wood with the technical refinements of a multi-layer construction. The top layer consists of a 0.6 millimeter wood veneer – the wood comes exclusively from sustainable forestry. The middle layer consists of a high-density fibreboard (HDF). This makes the flooring particularly stable and durable. Thanks to these properties, Veneer Parquet is a resource-saving and sustainable alternative to conventional parquet flooring.

The innovative feature, mo.re! technology, is the intelligent moisture protection. This means the real wooden surface of the floor is also protected for just in case.

Accessories that match your floor perfectly

Selected range of products

Every floor needs proper accessories. We can supply you with the ideal equipment for all types of flooring. One contact, one supplier – which makes everything so much simpler for you.

Underlays

Depending on the situation in the room, attention must be paid to the correct underlay material when installing the flooring. For this we offer multiple solutions.

Skirting boards

Choose from a range of skirtings in various decors that match all KronoOriginal® floors. Our advanced fixing system makes it quick and simple to achieve a perfect installation.

Additional accessories

If you still look for the proper skirting board, corner pieces, aluminium adhesive tape for sealing or you are done and wish to mop the floor, take a look at the following pages and discover the wide range of accessories.

Get more out of your mo.re! products

With suitable accessories, you leave nothing to chance –

whether you are looking for the right underlay, skirting boards, end pieces, corners and profiles for a harmonious finish, practical tools or the right cleaning agent.
